Financial Results

For the Six Months Ending June 30, 1998

Financial Highlights For the Six Months Ending June 30, 1998

Bank Insurance Fund (BIF):

- Net income plus unrealized gains on available-for-sale securities was \$638 million for the six months ending June 30, 1998, raising the fund balance to \$28.9 billion.
- Revenue totaled \$858 million for the six months ending June 30, 1998. The fund earned \$827 million in interest on investments in U.S. Treasury securities and earned \$8 million in deposit insurance assessments.
- ➤ The liability for anticipated failures of insured BIF institutions at \$47 million reflects the stable condition of the banking industry.
- Receivables from bank resolutions is \$841 million at June 30, 1998. This receivable balance peaked at \$27.8 billion in 1992 due to the large number of bank failures occurring at that time.
- Assets in liquidation totaled \$1.3 billion as of June 30, 1998, down by \$1.5 billion over the last 12 months.
- Total BIF expenses (fund level and receivership) decreased by \$32 million to \$394 million for the period ending June 30, 1998, compared to the same period last year. The BIF's operating expenses at the fund level increased by \$62 million to \$332 million as BIF receivership liquidation activity declined and programs associated with the primary purpose of the BIF, to insure deposits and to protect depositors of BIF-insured banks, become the principal activity of the Fund.

Savings Association Insurance Fund (SAIF):

- Net income was \$242 million for the six months ending June 30, 1998, increasing the fund balance to \$9.6 billion.
- Total revenue was \$282 million for the six months ending June 30, 1998.
- Total assets in liquidation is approximately \$3 million as of June 30, 1998, compared to \$25 million one year earlier.

FSLIC Resolution Fund (FRF): ~FRF-FSLIC~

- > Subsequent to June 30, it was determined that the FRF-FSLIC may be responsible for judgements and settlements of the goodwill litigation involving numerous cases against the U. S. Government. Future litigation losses are not estimable at this time. Settlements involving goodwill litigation reached to date will require payments totaling \$104 million. (See note on next page for more detail).
- ➤ Assets in liquidation totaled \$106 million, down by \$257

million over the last 12 months.

- Net receivables from thrift resolutions were \$44 million at June 30, 1998, compared to \$120 million for June 30, 1997, as assets of the former FSLIC continue to be liquidated.
- Net cash provided by operating activities decreased by \$770 million over the same period last year, due primarily to \$651.7 million received in January 1997 from the sale of common stock. The FRF had received the stock pursuant to a conversion, in December 1996, of warrants originally acquired from a 1987 assistance transaction.
- The accumulated deficit declined by \$136 million over the past year, as total resolution equity increased to \$2 billion as of June 30, 1998.

~FRF-RTC~

- ➤ The FRF-RTC earned \$156 million in interest income during the first six months of 1998 on the securitization credit enhancement reserves that were transferred to the Corporation as a non-cash dividend in October 1996.
- Assets in liquidation totaled \$1.7 billion as of June 30, 1998, down by \$1.4 billion over the last 12 months.
- Federal Financing Bank (FFB) borrowings were reduced by \$1.9 billion to \$357 million during the twelve months ending June 30, 1998.
- Provision for losses is a negative \$382 million for the period, primarily reflecting decreased losses expected for assets in liquidation.
- ➤ The accumulated deficit declined by \$1.7 billion over the past year, as total resolution equity increased to \$7.1 billion as of June 30, 1998.

Bank and Thrift Failure Activity:

- ➤ One BIF-insured institution, with assets of \$38 million, failed during the first six months of 1998. During 1997, one bank failed with total assets of \$26 million.
- ➤ No SAIF-insured institutions failed during the first six months of 1998 or during calendar 1997.

Other Significant Highlights

~Available-For-Sale Securities~

Historically, FDIC has purchased securities with the intention of holding them to maturity. Since October 1997, the Corporation, on behalf of the BIF and the SAIF, has purchased \$1.7 billion and \$575 million (par value) of securities, respectively, and designated them as *available-for-sale* to enhance the funds' liquidity position. This designation, along with the presentation of unrealized gains and losses on the Statements of Income and Fund Balance, is consistent with the applicable accounting standard, which requires these types of securities to be recorded at fair market value. For the six months ended June 30, 1998, the BIF recorded an unrealized gain of \$970 thousand and the SAIF recorded an unrealized loss of \$40 thousand. These gains and/or losses are reflected in the fund balance and are added to Net Income to arrive at Comprehensive Income.

~Asset Capitalization~

➤ Effective January 1, 1998, the FDIC began capitalizing various costs including software development, computer equipment, and leasehold improvements due to the increasing materiality of these costs. Previously, only land and buildings owned by the Corporation were capitalized. The BIF is the designated administrator of all capital assets owned and used by the Corporation. Depreciation expense will be allocated periodically to all funds on an equitable basis for each class of assets.

~Goodwill Litigation~

The U.S. Department of the Treasury has concluded that payment for judgments in most supervisory goodwill litigation should come from the FRF. Damages sought in the supervisory goodwill cases are in the "tens of billions of dollars," according to the Court of Federal Claims. Goodwill cases are those in which certain alleged agreements entered into by the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation are claimed to have been breached when Congress enacted legislation affecting the thrift industry and that legislation was implemented by the Office of Thrift Supervision. Future goodwill litigation settlements cannot be reasonably estimated now. However, if substantial final judgments are entered against the United States in the goodwill cases, available resources will likely not be sufficient to satisfy these obligations. Under such circumstances, 12 U.S.C. 1821a(c) provides that "the Secretary of the Treasury shall pay to the Fund such amounts as may be necessary, as determined by the [FDIC] and the Secretary, for FSLIC Resolution Fund purposes." Accordingly, Congress may need to appropriate additional funds to the FRF to carry out this provision.

Settlements reached to date in the goodwill cases require payments totaling \$104 million. The required payments associated with these cases are reflected in the Statement of Income and Accumulated Deficit in the "Interest and other insurance expenses" line item. The liability is presented on the Statement of Financial Position in the "Accounts payable and other liabilities" line item.
